To learn more about the Coxsackie LWRP, visit <https://www.coxsackielwrp.com/>

WHAT?

The village is developing a Local Waterfront Revitalization Program (LWRP), to define a vision for the community, with respect to waterfront issues and opportunities associated with Coxsackie Creek and the Hudson River.

The LWRP is a comprehensive land and water use program developed under New York State Law. The program will identify specific projects and policies to encourage environmental protections, foster economic development, and improve public access to the waterfront.
