

COXSACKIE

Comprehensive Plan

The Village and Town of Cossackie are experiencing a renaissance, with recent investments in both communities. The Riverside Park enhancements, development of the NY Forward Strategic Investment Plan (SIP), revitalization of the Hudson River waterfront, new developments along 9W, and continued housing development in the town have spurred additional growth in both communities.

To build on this momentum, the Village and Town, with support from the Greene County Industrial Development Agency, are updating the 2007 Joint Comprehensive Plan. The Plan will examine existing conditions and take into account a range of opportunities and challenges to chart a course for future growth and investment in both communities. The new Joint Comprehensive Plan will serve as the “work plan” for achieving the overarching goals of economic development, community attractiveness, sustainability, and resiliency.
